

Cold-Rolled Steel: Potential Chinese Exporters

Note:

This document lists potential Chinese Cold-Rolled Steel exporters. Most of the names come from CRU's Steel Sheet Products Market Outlook. CRU provides only a simple name. The Complainant has researched all names identified by CRU so as to provide a more full name and address. In a number of cases, the Complainant's research was unable to find additional information about the Chinese producer. The Complainant has also sought to identify Companies that may be state-owned or stated-controlled enterprises. The supplemental information, including addresses, is either from websites associated with the CRU identified firms or from third-party websites, such as Bloomberg and Reuters.

In addition to CRU, the Complainant has also located some additional firms that may produce cold-rolled steel. These firms are listed below under the heading "Other".
