DEAR ESTEEMED SHAREHOLDERS,

On behalf of the Board of Directors of Hoa Sen Group, I would like to express our sincere thanks to esteemed shareholders, partners, customers, and all employees who have closely accompany us during the past 15 years.

Year 2016 has a special meaning, marking a 15-year journey of unity, establishment, development and maturity of Hoa Sen Group. With great efforts and determination, we have gradually become a leading steel production group in domestic market and region, bringing great value to consumer, community and society.

In that spirits, the management and employees have been striving to achieve outstanding performance, flexibly responding to complex movements of the steel market. Ending the fiscal year 2015 – 2016, Hoa Sen Group impressively exceeded the business plan and had significant growth in comparison with the previous fiscal year. Sales volume reached 1,242,579 tons, exceeded 13% over the plan and increased 22% in comparison with the same period of last year. Net sales reached VND 17,894 billion, exceeded 25% over the plan. Above all, the most prominent performance is the after-tax profit which reached VND 1,504 billion, increased 130% compared to the previous fiscal year.

The Dumping and Subsidizing of Cold-Rolled Steel in Coils and Strip

With these achievements, Hoa Sen Group continues to affirm the leading position on the domestic steel sheet market, accounted for over 30% of the steel sheet market share, over 20% of the steel pipe market share, and at the same time achieves long strides on the international market with distribution channel across 65 countries and territories and exporting sales revenue accounted for nearly 40% of total net sales of the Group, proclaimed as a Global Growth Company of the World Economic Forum.

The accomplishments that we achieved today are result of the companion and support from esteemed shareholders as well as the restlessly efforts of all Hoa Sen Group’s employees. With this tremendous momentum, Hoa Sen Group is increasingly becoming a major and strong brand name on both domestic and international market.

Entering fiscal year 2016 - 2017, the steel market is forecasted to face complicated and unexpected changes with fluctuant price of raw materials and trade remedy actions from the export markets. Therefore, in order to maintain our leading position and promote achievements, we aim to fulfill the following key tasks:

- Firstly, focusing on domestic market as foundation through expanding quickly the retail distribution network along with ensuring effective management and control. In addition, continuing to seek and expand export markets and prepare appropriate measures to respond to the trade remedy actions.
- Secondly, concentrating on completing the production project being implemented in Nghe An province, Ha Nam province, Binh Dinh province, etc.; meanwhile researching and implementing new industrial projects in order to increase production capacity, complete the vertical integrated value chain, diversify products and create cost competitive advantage.
- Thirdly, strengthening marketing activities through media events, charitable activities and community-oriented programs in order to implement social responsibility and build strong, friendly Hoa Sen brand name.
- Fourthly, completing Hoa Sen Group management model by region and by sector to ensure conformity with the actual business operation, efficiently utilizing resources for future development.
- Finally, researching carefully and preparing all necessary conditions to implement new investment projects and business plan for potential sectors such as real estate, tourism, energy, etc.

Hoa Sen Group is entering a new era of growth; with appropriate guideline and strategy, alongside the culture of “Integrity – Community – Development” and a talented, young labor force, we have sufficient foundation to believe in the upcoming victory and success.

On behalf of the Board of Directors and all employees of Hoa Sen Group, I would like to thank profoundly to esteemed shareholders for always believing, supporting and accompanying with Hoa Sen Group.

We hope that esteemed shareholders are always companions of Hoa Sen Group to continue to promote the good cooperation for our prosperous development in the future.

We wish your health, happiness and success.

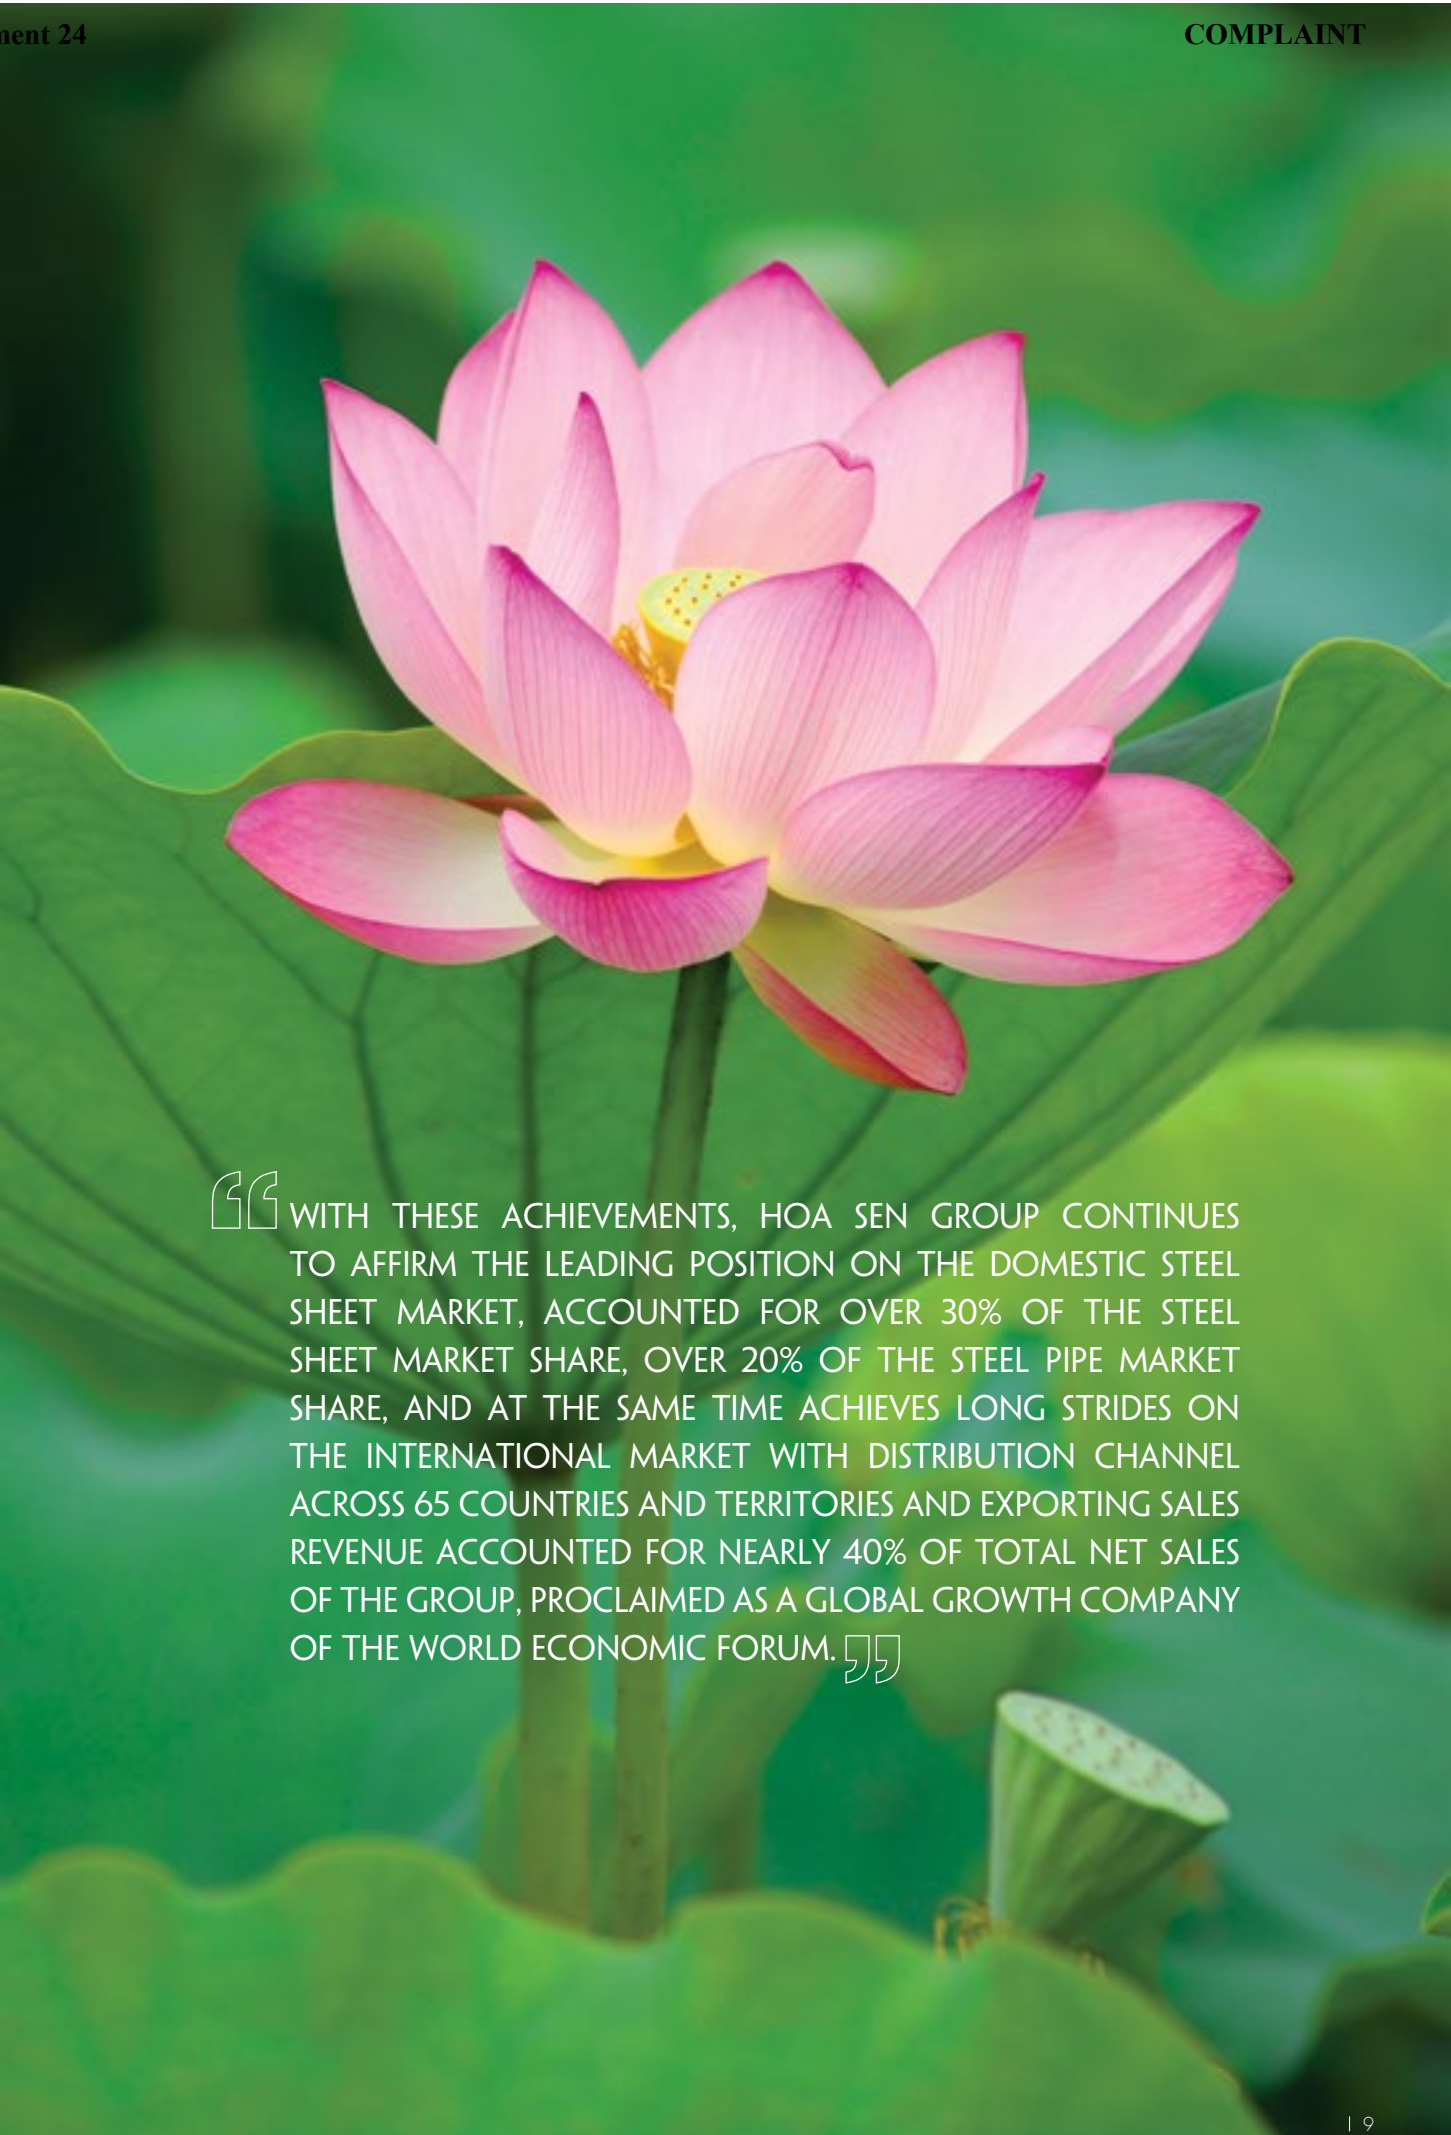

Best regards,

Chairman of the Board of Directors

LE PHUOC VU

COLD ROLLED COIL

By applying the modern 6 high single-stand reversing cold rolling technology, cold rolled coils of the Group meet the strict requirements of quality in accordance with Japanese standard of JIS G3141.

GALVANIZED STEEL SHEET (GI)

Being manufactured by the advanced and environmentally friendly NOF technology, the products meet the strictest requirements of galvanized steel sheet in accordance with Japanese standard of JIS G3302. With the effective anti-erosive and smoothly coated surface, Hoa Sen galvanized steel sheet, which meet high quality standard of ASTM A653/A653M (US), AS 1397 (Australia), EN 10346 (Europe), MS

2384 and MS 2385 (Malaysia), is first priority choice of the consumers.

PRE-PAINTED ZINC ALLOY COATED STEEL SHEET (PRE-PAINTED GI)

With the variety in color and specifications of Hoa Sen Group, pre-painted galvanized steel sheets always satisfy the customers' demands and ensure the products' quality in accordance with standards of JIS G3312 (Japan), ASTM A755/A755M (US), AS 2728 (Australia), EN 10169

(Europe) and MS 2383 (Malaysia).

ALUMINUM-ZINC ALLOY COATED STEEL SHEET (GL)

Being manufactured by the advanced and environmentally friendly NOF technology, aluminum-zinc alloy coated steel sheets meet the standards of ASTM A792/A792M (US), AS 1397 (Australia), JIS G3321 (Japan), MS 1196 (Malaysia) and EN 10346 (Europe). The products' surfaces are glossy, silvery, anti-erosive, effectively heat-resistant and flexibly designed with 4 times higher durability than

other common kinds of steel sheet product.

PRE-PAINTED ALUMINUM-ZINC ALLOY COATED STEEL SHEET (PRE-PAINTED GL)

Being applied the most advanced technology of color coating on aluminum-zinc alloy surface makes the products outstandingly durable, highly aesthetic, and ensures the products' quality standards: JIS G3322 (Japan), ASTM A755/A755M (US), AS 2728 (Australia), MS 2383 (Malaysia), EN 10169 (Europe).

WOOD PATTERN STEEL SHEET

The outstanding feature of wood pattern steel sheets is their surfaces which are coated with the paint of wood pattern. Therefore, they are highly aesthetic, and can be applied to make outdoor products and furniture which bring the subtlety and luxury to the houses. Being different from traditional steel sheets, the applications of wood pattern steel sheets are extremely diverse. The products are used flexibly for construction works and houses such as ceilings, walls, wardrobes, shelves, furniture, etc. These are the products which have many advantages such as high aestheticism, good heat resistance, high durability, no mold, easy cleaning, high temperature resistance, easy installation, etc. The products can be used without drawbacks of earlier materials such as dinginess, mold, rapid degradation, etc.

PRE-PAINTED GL/GI WITH PVDF

Pre-painted GL/GI is used paint which main factor is high grade Fluoropolymer plastic on GL/GI steel sheet surfaces, and combination of the carbon-fluoro associated with carbon-hydrogen atoms of PVDF to increase significant prevention of erosion, acid and to strengthen paint durability than normal polyester paint. Moreover, the product can prevent UV ray in severe weather conditions and ensure high quality in accordance with standard of JIS G 3322, JIS G 3312 (Japan), ASTM A755/A755M (US), AS 2728 (Australia), EN 10169 (Europe), MS 2383 (Malaysia).

METALLIC STEEL SHEET

An outstanding feature of metallic steel sheet is that its metallic surface creates a very high aestheticism and is widely favored by the consumers. Metallic steel sheet is applied to interior decoration which brings the elegance and sophistication to the houses

OVERVIEW

MACRO SITUATION

In 2016, Vietnam's economy continues to have positive development, maintaining stable growth momentum with the following characteristics:

- General domestic product (GDP) in the first 9 months of 2016 rose 5.93% estimately compared to the same period in 2015.
- Average consumer price index in the first 9 months of the year increased by 2.07% compared to the same period in 2015, but still within the 5% limit set by the National Assembly.
- Credit growth of the economy reached 10.46%. The average interest rate is adjusted down to the range of 0.3% - 0.5%.
- The integration of the ASEAN Community in 2016 brought many opportunities, as well as challenges for the economic integration of Vietnam.

- Nevertheless, in the context where economic growth of major economies such as the US, China, Japan, is slowing down combined with the volatilities and uncertainties of the political - security situation in some sensitive areas of the world, the domestic market was somewhat significantly impacted, especially in the export and budgeting activities.

MARKET SITUATION

Under the pressure of the long last over-production crisis, the market for the steel industry in 2016 has been going through a very difficult period:

- Iron ore and hot rolled steel prices sharply increased in the first 6 months but continuously fluctuated in the following months.
- The steel market is currently over-supplied with products serving construction industry, but under-supplied with products serving manufacturing, processing sector (hot roll coil, high quality alloy steel, shape steel, long steel, etc.). This is one of the reasons for the increasing long steel trade deficit of Vietnam.
- The prices of many construction steel products were low compared to the average prices of previous years.

AND THE GROWTH IN CONSOLIDATED AFTER-TAX
PROFIT OF HOA SEN GROUP IN 5 FISCAL YEARS.

The outstanding business results in fiscal year 2015 – 2016 of Hoa Sen Group comes from the following reasons:

- The recovery of the real estate market led to an increase in demand for the products of building materials, especially steel products.
- The recovery of hot rolled coils prices on the market compared to the previous fiscal year.
- Large-scale production plants (Hoa Sen Nghe An plant, Hoa Sen Binh Dinh plastic pipe plant) along with many new production lines, machineries and equipments in the current plants were put into operation, improving production capacity and product diversification, minimizing transportation cost, enhancing Hoa Sen Group competitiveness in the new markets.
- Furthermore, the wide-spread retail branches network continued to expand, augmented with an effective cost management mechanism, and a appropriate flexible business policy is also one of the important factors contributing to the success of Hoa Sen Group in fiscal year 2015 – 2016.

RISK MANAGEMENT

“ IN ORDER TO MINIMIZE POSSIBLE RISKS IN BUSINESS OPERATIONS, THE GROUP HAS BUILT A STRATEGY OF RISK MANAGEMENT, WHICH NOT ONLY GUARANTEES BUSINESS OBJECTIVES BUT ALSO CREATES COMPETITIVE ADVANTAGE IN ORDER TO ENSURE THE GROUP’S BEST OPERATION. THE ESTABLISHMENT OF THE FUNCTIONAL DEPARTMENTS SUCH AS INTERNAL CONTROL DIVISION, LEGAL DIVISION, VALUATION DIVISION AND MATERIAL DIVISION AIMS TO CONTROL THE POSSIBLE RISKS AND MAKE THE POSITIVE OUTCOMES IN BUSINESS OPERATION AND SUPERVISION OF THE GROUP. ”

MANAGING RISKS IN BUSINESS ACTIVITIES

The economic growth rate is a factor that directly affects the aggregate demand. As the economy grows, the demand of steel sheet and building materials including the demand of Hoa Sen Group products will also increase. Otherwise, when the economy goes down, the demand of using steel sheet and building material products will decline. Therefore, the Group has always prepared operational scenarios in order to actively respond to any situations to ensure the best business operation.

The Group imports the majority of hot rolled coils (the main raw materials) from foreign countries, therefore track and analysis of hot rolled coils’ price in domestic and international to choose the right time to buy with the best price and to limit of raw material risks that are particularly attended by the Board of Directors and the Board of Management.

The fluctuation of selling price in the market directly affects Hoa Sen Group’s business activities. Therefore, the flexible selling price policy in accordance with the fluctuation of market price is always considered and adjusted by the Board of Directors and the Board of Management due to the market situation at specific time.

MANAGING RISKS IN PRODUCTION ACTIVITIES

In production activities, Hoa Sen Group always focuses on reviewing, improving and standardizing the consumption norms of raw materials in order to reduce the products’ cost. The Valuation Division and Material Division co-ordinate and consider in selecting suppliers of the raw materials which have suitable quality and reasonable price in order to minimize the raw material risks. Simultaneously, the Internal Control Division will recheck all the expenses of buying raw materials to guarantee the integrity, accuracy and transparency.

The Group always has regular and periodic maintenance and repair plans so that machinery and equipment are always in the best condition in order to ensure safe and efficient operation.

MANAGING FINANCIAL RISKS

In production and business activities, the Group may be subjected to risk of exchange rate, risk of interest rate, risk of bad debts and risk of liquidity.

Basing on the export revenue, the Board of Management balances structure of borrowings in VND and USD to ensure the lowest average interest rate but still has enough USD to pay the foreign currency loans. The borrowing structure is submitted to the Board of Directors to consider and supervise monthly in order to minimize impact of the risk of interest rate and the risk of exchange rate.

For new customers, the Group requires payment guarantee from bank for delivery. For traditional customers, the Group issues debt limit for each customer in each period based on financial situation, collateral, transaction reputation of each customer and proposal of sales units. The Board of Management reviews the debt limit monthly. The sales units are responsible for collecting the debts on time. The Internal Control Division inspects, supervises, and reports to the Board of Management the debts which need to be collected daily. If bad debts occur, the Legal Department will implement some measures to collect the debts including suing measure.

The Finance Department makes and reports on plan of cash flow weekly so that the Board of Management has flexible business operating measures in order not to have overdue payables.

MANAGING RISKS OF CHANGING POLICY

Legal documents in the field of business and securities have been in the process of improvement so that changing policy can always happen and they can somehow affect to management, production, and business activities of Hoa Sen Group. The Assistant Board takes responsibility in updating and consulting new legal documents to minimize risk of changing policy which can affect directly to production and business activities of the Group.

MANAGING OTHER RISKS

In order to minimize unavoidable risks such as natural disasters, fires, accidents, etc., the Group always buys 24/24 accident insurance for all employees and the asset insurance of the Group.

OF FINISHED STEEL SHEET
TO MEXICO

Hoa Sen Nghe An One Member Limited Liabilities Company, one of Hoa Sen Group’s subsidiaries, was established on June 12th, 2015. The company’s head office and main factory are located at Lot CN 1-8, Dong Hoi Industrial Park, Quynh Lap Commune, Hoang Mai Town, Nghe An Province. Currently, the Company’s main activities are manufacture and trading metal roof plate.

June 2016, Hoa Sen Nghe An One Member Limited Liabilities Company was officially put into operation the galvanizing line (NOF technology) with capacity of 400,000 tons/year and successfully produced the first finished products after 11 months of construction. As a result, this contributes to improve production and supply capacity of Hoa Sen Group in Central North region as well as to

export to foreign countries. The plant also creates jobs and incomes to local employees, gains the State budget as well as promotes the economic - social development of Nghe An province.

In September 2016, Hoa Sen Nghe An One Member Limited Liabilities Company exported the first cargo of 6,000 tons of finished steel sheet to Mexico (America). This is the first Vietnam steel enterprise exported to Mexico with the large volume of steel sheets. Simultaneously, this will lead the development of Vietnamese steel industry and export to international markets in future

On September 26th 2016, the Hoa Sen Group’s Board of Directors promulgated the Resolution of merging Hoa Sen Nam Cam – Nghe An One Member Liabilities Limited Company to Hoa Sen Nghe An One Member Liabilities Limited Company. After merging, Hoa Sen Nghe An One Member Liabilities Limited Company will establish the branch at Hoa Sen Nam Cam – Nghe An One Member Liabilities Limited Company’s location to supervise, manage all operations and deploy the expanding investment for the next phases of Hoa Sen Nam Cam – Nghe An Plant Project.

The auditor of the Company is Ernst & Young Vietnam Limited.

REPORT OF THE GENERAL DIRECTOR

The General Director of Hoa Sen Group (“the Company”) is pleased to present his report and the separate financial statements of the Company for the year ended 30 September 2016.

THE GENERAL DIRECTOR’S RESPONSIBILITY IN RESPECT OF THE SEPARATE FINANCIAL STATEMENTS

The General Director is responsible for the separate financial statements of each financial year which give a true and fair view of the separate financial position of the Company and of the separate results of its operations and its separate cash flows for the year. In preparing those separate financial statements, the General Director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the separate financial statements; and
- prepare the separate financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

The General Director is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the separate financial position of the Company and to ensure that the accounting records comply with the applied accounting system. He is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

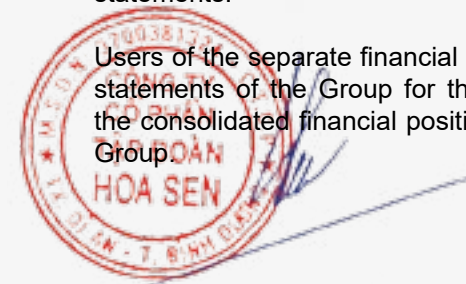

The General Director confirmed that he has complied with the above requirements in preparing the accompanying separate financial statements.

STATEMENT BY THE GENERAL DIRECTOR

The General Director does hereby state that, in his opinion, the accompanying separate financial statements give a true and fair view of the separate financial position of the Company as at 30 September 2016, and of the separate results of its operations and the separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of separate financial statements.

As disclosed in Note 14.1 of the accompanying separate financial statements, the Company is a parent company with subsidiaries and it is in the process of completing the preparation of the consolidated financial statements of the Company and its subsidiaries (“the Group”) for the year ended 30 September 2016 in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the relevant statutory requirements relevant to preparation and presentation of interim consolidated financial statements.

Users of the separate financial statements should read them together with the said consolidated financial statements of the Group for the year ended 30 September 2016 in order to obtain full information on the consolidated financial position, consolidated results of operations and consolidated cash flows of the Group.

INDEPENDENT AUDITORS’ REPORT

Reference: 61183992/18452358

To: The Shareholders of Hoa Sen Group

We have audited the accompanying separate financial statements of Hoa Sen Group (“the Company”) as prepared on 15 December 2016 and set out on pages 5 to 49 which comprise the separate balance sheet as at 30 September 2016, the separate income statement and the separate cash flow statement for the year then ended and the notes thereto.

The General Director’s responsibility

The Company’s General Director is responsible for the preparation and fair presentation of these separate financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of separate financial statements, and for such internal control as the General Director determines is necessary to enable the preparation and presentation of separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the General Director, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the separate financial statements give a true and fair view, in all material respects, of the separate financial position of the Company as at 30 September 2016, and of the separate results of its operations and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of separate financial statements.

Emphasis of matter

As disclosed in Note 2.1 of the separate financial statements, the Company is a parent company with subsidiaries and it is in the process of completing the preparation of the consolidated financial statements of the Company and its subsidiaries (“the Group”) for the year ended 30 September 2016 in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of consolidated financial statements. Users of the accompanying separate financial statements should read them together with the said consolidated financial statements in order to obtain full information on the consolidated financial position, consolidated results of operations and consolidated cash flows of the Group.

2. BASIS OF PREPARATION

2.1 Purpose of preparing theseparate financial statements

The Company has subsidiaries as disclosed in Note 14.1. The Company prepared these separate financial statements to meet the prevailing requirements in relation to disclosure of information, specifically the Circular No. 155/2015/TT-BTC on disclosure of information on the securities market. In addition, as required by these regulations, the Company has also prepared the consolidated financial statements of the Company and its subsidiaries for the year ended 30 September 2016.

Users of the separate financial statements should read them together with the said consolidated financial statements in order to obtain full information on the consolidated financial position, consolidated results of operations and consolidated cash flows of the Company and its subsidiaries.

2.2 Applied accounting standards and system

The separate financial statements of the Company, expressed in Vietnam dong (“VND”), are prepared in accordance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying separate financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.3 Applied accounting documentation system

The Company's applied accounting documentation system is the Voucher Journal system.

2.4 Fiscal year

The Company's fiscal year applicable for the preparation of its annual separate financial statements starts on 1 October and ends on 30 September.

2.5 Accounting currency

The separate financial statements are prepared in VND which is also the Company's accounting currency.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Change in accounting policies and disclosures

The accounting policies adopted by the Company in preparation of the separate financial statements are consistent with those followed in the preparation of the Company's annual separate financial statements for the year ended 30 September 2015 except for the changes in the accounting policies in relation to the application of Circular No. 200/2014/TT-BTC providing guidance on enterprise accounting system.

On 22 December 2014, the Ministry of Finance issued the Circular No. 200/2014/TT-BTC providing guidance on enterprise accounting system ("Circular 200") replacing Decision No. 15/2006/QĐ-BTC dated 20 March 2006 and Circular No. 244/2009/TT-BTC dated 31 December 2009 of the Ministry of Finance. Circular 200 is effective for the financial years beginning on or after 1 January 2015.

The effects of the change in accounting policies under Circular 200 to the Company's separate financial statements are applied on a prospective basis as Circular 200 does not require for retrospective application. The Company also reclassifies certain corresponding figures of prior year following the presentation of the current year's separate financial statements in accordance with Circular 200 as disclosed in Note 29.

3.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks, cash in transit and short-term, highly liquid investments with an original maturity of less than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.3 Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value. Net realizable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Merchandises, raw materials, tools and supplies	- cost of purchase on a weighted average basis.
Finished goods and work-in-process	- cost of direct materials and labour plus attributable manufacturing overheads based on the normal operating capacity on a weighted average basis.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Company, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the separate income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.4 Receivables

Receivables are presented in the separate financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases and decreases to the provision balance are recorded as general and administrative expense in the separate income statement.

3.5 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the separate income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the separate income statement.

3.6 Leased assets

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Where the Company is the lessee

Assets held under finance leases are capitalised in the separate balance sheet at the inception of the lease at the fair value of the leased assets or, if lower, at the net present value of the minimum lease payments. The principal amount included in future lease payments under finance leases are recorded as a liability. The interest amounts included in lease payments are charged to the separate income statement over the lease term to achieve a flexible rate on interest on the remaining balance of the finance lease liability.

Capitalised financial leased assets are depreciated using straight-line basis over the shorter of the estimated useful lives of the asset and the lease term, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term.

Rentals under operating leases are charged to the separate income statement on a straight-line basis over the lease term.

Where the Company is the lessor

Assets subject to operating leases are included as the Company's fixed assets in the separate balance sheet. Initial direct costs incurred in negotiating an operating lease are added to the carrying value of the leased asset for amortisation to the separate income statement over the lease term.

Lease income is recognised in the separate income statement on a straight-line basis over the lease term.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 Intangible assets

Intangible assets are stated at cost less accumulated amortisation.

The cost of an intangible asset comprises its purchase price and any directly attributable costs of preparing the intangible asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the separate income statement as incurred.

When intangible assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the separate income statement.

Land use rights

Land use rights are recorded as intangible assets representing the value of the right to use the lands acquired or leased by the Company. The useful lives of land use rights are assessed as either definite or indefinite. Accordingly, the land use rights with definite useful lives representing the land lease are amortised over the lease term while the land use rights with indefinite useful lives are not amortised.

3.8 Depreciation and amortisation

Depreciation of tangible fixed assets and finance leases, and amortisation of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	10 - 40 years
Machinery and equipment	5 - 15 years
Means of transportation	7 - 10 years
Office equipment	3 - 5 years
Others	5 - 8 years
Land use rights	14 - 55 years
Computer software	3 - 10 years

3.9 Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds.

Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

3.10 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the separate balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.11 Investments

Investments in subsidiaries

Investments in subsidiaries over which the Company has control are carried at cost. Distributions from accumulated net profits of the subsidiaries arising subsequent to the date of acquisition are recognised to the Company's separate income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

Investments in associates

Investments in associates over which the Company has significant influence are carried at cost. Distributions from accumulated net profits of the associates arising subsequent to the date of acquisition are recognised to the Company's separate income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

Investments in other entities

Investment in other entities is stated at their acquisition costs.

Provision for diminution in value of investments

Provision for any diminution in value of the investments in other entities at the balance sheet date is made in accordance with the guidance under Circular No. 228/2009/TT-BTC dated 7 December 2009 and Circular No. 89/2013/TT-BTC dated 28 June 2013 issued by the Ministry of Finance. Increases or decreases to the provision balance are recorded as finance expense in the separate income statement.

3.12 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

3.13 Accrual for severance pay

The severance pay to employee is accrued at the end of each reporting year for all employees who have been in service for more than 12 months up to balance sheet date at the rate of one-half of the average monthly salary for each year of service up to 31 December 2008 in accordance with the Labour Code, the Law on Social Insurance and related implementing guidance. The average monthly salary used in this calculation will be revised at the end of each reporting period following the average monthly salary of the 6-month period up to the reporting date. Increases or decreases to the accrued amount other than actual payment to employee will be taken to the separate income statement.

This accrued severance pay is used to settle the termination allowance to be paid to employee upon termination of their labor contract following Article 48 of the Labor Code.

3.14 Foreign currency transactions

Transactions in currencies other than the Company's accounting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- Transaction resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment; and
- Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.14 Foreign currency transactions (continued)

At the end of the year, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rates at the balance sheet dates which are determined as follows:

- Monetary assets are translated at buying exchange rate of the commercial bank where the Company conducts transactions regularly; and
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Company conducts transactions regularly.

All foreign exchange differences incurred during the year and arising from the revaluation of monetary accounts denominated in foreign currency at year-end are taken to the separate income statement.

3.15 Treasury shares

Own equity instruments which are reacquired (known as treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Company's own equity instruments.

3.16 Appropriation of net profit

Net profit after tax is available for appropriation to shareholders after approval in the annual general meeting, and after making appropriation to funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

The Company maintains the following fund which is appropriated from the Company's net profit as proposed by the Board of Directors and subject to the approval of shareholders at the annual general meeting.

Bonus and welfare fund

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the separate balance sheet.

3.17 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Rendering of services

Revenue is recognised when the services have been performed and completed.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Revenue is recognised when the Company is entitled to receive dividends.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.18 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the separate income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the balance sheet liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial statement purpose.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the assets is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the separate income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or when the Company intends either settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

26.2 Current CIT

The current tax payable is based on taxable profit for the current year. The taxable profit of the Company for the year differs from the accounting profit as reported in the separate income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted by the balance sheet date.

A reconciliation between the accounting profit before tax as reported in the separate income statement and taxable profit is presented below:

REPORT OF GENERAL DIRECTOR

The General Director of Hoa Sen Group (“the Company”) is pleased to present this report and the consolidated financial statements of the Company and its subsidiaries (“the Group”) for year ended 30 September 2016.

THE GENERAL DIRECTOR’S RESPONSIBILITY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS

The General Director is responsible for the consolidated financial statements of each financial year which give a true and fair view of the consolidated financial position of the Group and of the consolidated results of its operations and its consolidated cash flows for the year. In preparing those consolidated financial statements, the General Director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the consolidated financial statements; and
- prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue its business.

The General Director is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the consolidated financial position of the Group and to ensure that the accounting records comply with the applied accounting system. He is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The General Director confirmed that he has complied with the above requirements in preparing the accompanying consolidated financial statements.

STATEMENTS BY THE GENERAL DIRECTOR

The General Director does hereby state that, in his opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 September 2016 and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of consolidated financial statements.

INDEPENDENT AUDITORS’ REPORT

Reference: 61183992/18452358-HN

To: The Shareholders of Hoa Sen Group

We have audited the accompanying consolidated financial statements of Hoa Sen Group (“the Company”) and its subsidiaries (“the Group”) as prepared on 16 December 2016 and set out on pages 5 to 46, which comprise the consolidated balance sheet as at 30 September 2016, and the consolidated income statement and consolidated cash flow statement for the year then ended and the notes there to.

The General Director’s responsibility

The Company’s General Director is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of consolidated financial statements, and for such internal control as the General Director determines is necessary to enable the preparation and presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the General Director, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of the Group as at 30 September 2016, and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of consolidated financial statements.

2. BASIS OF PREPARATION

2.1 Applied accounting standards and system

The consolidated financial statements of the Group, expressed in Vietnam dong (“VND”), are prepared in accordance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

- Decision No. 149/2001/QD-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
- Decision No. 165/2002/QD-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
- Decision No. 234/2003/QD-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
- Decision No. 12/2005/QD-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
- Decision No. 100/2005/QD-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying consolidated financial statements, including their utilisation are not designed for those who are not informed about Vietnam’s accounting principles, procedures and practices and furthermore are not intended to present the consolidated financial position and consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.2 Applied accounting documentation system

The Group’s applied accounting documentation system is the Voucher Journal system.

2.3 Fiscal year

The Group’s fiscal year applicable for the preparation of its consolidated financial statements starts on 1 October and ends on 30 September.

2.4 Accounting currency

The consolidated financial statements are prepared in VND which is also the Group’s accounting currency.

2.5 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries for the year ended 30 September 2016.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continued to be consolidated until the date that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

All intra-company balances, income and expenses and unrealised gains or losses resulting from intra-company transactions are eliminated in full.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet, separately from parent shareholders’ equity.

Impact of change in the ownership interest of a subsidiary, without a loss of control, is recorded in retained earnings.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Change in accounting policies and disclosures

The accounting policies adopted by the Group in preparation of the consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 30 September 2015, except for the changes in the accounting policies in relation to the following:

3.1.1 Circular No. 200/2014/TT-BTC providing guidance on enterprise accounting system

On 22 December 2014, the Ministry of Finance issued the Circular No. 200/2014/TT-BTC providing guidance on enterprise accounting system ("Circular 200") replacing Decision No. 15/2006/QĐ-BTC dated 20 March 2006 and Circular No. 244/2009/TT-BTC dated 31 December 2009 of the Ministry of Finance. Circular 200 is effective for the financial year beginning on or after 1 January 2015.

The effects of the change in accounting policies under Circular 200 to the Group's consolidated financial statements are applied on a prospective basis as Circular 200 does not require for retrospective application. The Group also reclassifies certain corresponding figures of prior year following the presentation of the current year's consolidated financial statements in accordance with Circular 200 as disclosed in Note 30.

3.1.2 Circular No. 202/2014/TT-BTC providing guidance on preparation and presentation of consolidated financial statements

On 22 December 2014, the Ministry of Finance also issued the Circular No. 202/2014/TT-BTC providing guidance on preparation and presentation of consolidated financial statements ("Circular 202") replacing section XIII of Circular No. 161/2007/TT-BTC dated 31 December 2007. Circular 202 is effective for the preparation and presentation of consolidated financial statements for the financial years beginning on or after 1 January 2015.

The effects of the change in accounting treatment under Circular 202 are applied on a prospective basis as this Circular does not require for retrospective application

3.2 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks, cash in transit and short-term, highly liquid investments with an original maturity of less than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.3 Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Raw materials, tools and supplies, and merchandise	- cost of purchase on a weighted average basis.
Finished goods and work in process	- cost of direct materials and labour plus attributable manufacturing overheads based on the normal operating capacity.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Group, based on appropriate evidence of impairment available at the balance sheet date.

Increases and decreases to the provision balance are recorded into the cost of goods sold account in the consolidated income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.4 Receivables

Receivables are presented in the consolidated financial statements at the carrying amounts due from customers and other debtors, along with the provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases and decreases to the provision balance are recorded as general and administrative expense in the consolidated income statement.

3.5 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the consolidated income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

3.6 Leased assets

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

Where the Group is the lessee

Assets held under finance leases are capitalised in the consolidated balance sheet at the inception of the lease at the fair value of the leased assets or, if lower, at the net present value of the minimum lease payments. The principal amount included in future lease payments under finance leases are recorded as a liability. The interest amounts included in lease payments are charged to the consolidated income statement over the lease term to achieve a constant rate on interest on the remaining balance of the finance lease liability.

Capitalised financial leased assets are depreciated using straight-line basis over the shorter of the estimated useful lives of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Rentals under operating leases are charged to the consolidated income statement on a straight-line basis over the lease term.

Where the Group is the lessor

Assets subject to operating leases are included as the Group's fixed assets in the consolidated balance sheet. Initial direct costs incurred in negotiating an operating lease are added to the carrying value of the leased asset for amortisation to the consolidated income statement over the lease term.

Lease income is recognised in the consolidated income statement on a straight-line basis over the lease term.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.7 Intangible assets

Intangible assets are stated at cost less accumulated amortisation.

The cost of an intangible asset comprises its purchase price and any directly attributable costs of preparing the intangible asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the consolidated income statement as incurred.

When intangible assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the consolidated income statement.

Land use rights

Land use rights are recorded as intangible assets representing the value of the right to use the lands acquired or leased by the Group. The useful lives of land use rights are assessed as either definite or indefinite. Accordingly, the land use rights with definite useful lives representing the land lease are amortised over the lease term while the land use rights with indefinite useful lives are not amortised.

3.8 Depreciation and amortisation

Depreciation of tangible fixed assets and financial leases, and amortisation of intangible assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	5 - 50 years
Machinery and equipment	3 - 15 years
Means of transportation	6 - 10 years
Office equipment	3 - 8 years
Others	5 - 8 years
Land use rights	14 - 55 years
Computer software	3 - 10 years

3.9 Borrowing costs

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds

Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

3.10 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the consolidated balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.11 Investments

Investments in associates

The Group's investments in its associates are accounted for using the equity method of accounting. An associate is an entity in which the Group has significant influence that is neither subsidiaries nor joint ventures. The Group generally deems they have significant influence if they have over 20% of the voting rights.

Under the equity method, the investment is carried in the consolidated balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associate. Goodwill arising on acquisition of the associate is included in the carrying amount of the investment and subject to annual review for impairment. The consolidated income statement reflects the share of the post-acquisition results of operation of the associate.

The share of post-acquisition profit (loss) of the associate is presented on the face of the consolidated income statement and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend or profit sharing received or receivable from the associate reduce the carrying amount of the investment.

Investment in other entity

Investment in other entity is are stated at their acquisition costs.

Provision for diminution in value of investments

Provision for any diminution in value of the investments in capital of other entities at the balance sheet date is made in accordance with the guidance under Circular No. 228/2009/TT-BTC dated 7 December 2009 and Circular No. 89/2013/TT-BTC dated 28 June 2013 issued by the Ministry of Finance. Increases or decreases to the provision balance are recorded as finance expense in the consolidated income statement.

3.12 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Group.

3.13 Accrual for severance pay

The severance pay to employee is accrued at the end of each reporting year for all employees who have been in service for more than 12 months up to the balance sheet date at the rate of one-half of the average monthly salary for each year of service up to 31 December 2008 in accordance with the Labour Code, the Law on Social Insurance and related implementing guidance. The average monthly salary used in this calculation is revised at the end of each reporting year following the average monthly salary of the 6-month period up to the reporting date. Increase or decrease to the accrued amount other than actual payment to employee will be taken to the consolidated income statement.

This accrued severance pay is used to settle the termination allowance to be paid to employee upon termination of their labour contract following Article 48 of the Labour Code.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.14 Foreign currency transactions

Transactions in currencies other than the Group's reporting currency of VND are recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

- Transaction resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment; and
- Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

At the end of the year, monetary balances denominated in foreign currencies are translated at the actual transaction exchange rates at the balance sheet dates which are determined as follows:

- Monetary assets are translated at buying exchange rate of the commercial bank where the Group conducts transactions regularly; and
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Group conducts transactions regularly.

All foreign exchange differences incurred during the year and arisen from the translation of monetary accounts denominated in foreign currency at year-end are taken to the consolidated income statement.

3.15 Treasury shares

Own equity instruments which are reacquired (known as treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss upon purchase, sale, issue or cancellation of the Group's own equity instruments.

3.16 Appropriation of net profit

Net profit after tax is available for appropriation to shareholders after approval in the annual general meeting, and after making appropriation to funds and reserve funds in accordance with the Group's Charter and Vietnam's regulatory requirements.

The Group maintains the following fund which is appropriated from the Group's net profit as proposed by the Board of Directors and subject to approval by shareholders at the annual general meeting.

Bonus and welfare fund

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the consolidated balance sheet.

3.17 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.17 Revenue recognition (continued)

Rendering of services

Revenue is recognised when the services have been performed and completed.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognised when the Group is entitled to receive dividends.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term.

3.18 Taxation

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Group to set off current tax assets against current tax liabilities and when the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for consolidated financial statements purpose.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.18 Taxation (continued)

Deferred tax (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Group to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or when the Group intends either settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.19 Earnings per share

Basic earnings per share amounts are calculated by dividing net profit after tax for the year attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

3.20 Segment information

A segment is a component determined consolidated by the Group which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

26. CORPORATE INCOME TAX

The Company and its subsidiaries have the obligation to pay corporate income tax ("CIT") at the rate of 22% of taxable profits for the period from 1st October 2015 to 31st December 2015 and at the rate of 20% of taxable profits for the period from 1st January 2016 to 30th September 2016, except for the following:

- HSBD is entitled to an exemption from CIT for 2 years commencing from the first year in which a taxable profit is earned, and a 50% reduction of the applicable CIT tax rate for the following 4 years.
- The CIT rate applicable to HSNC, HSNA and HSNH is 10% of taxable profits in 15 years since the first year of revenue and the applicable tax rate for the years thereafter. These subsidiaries are entitled to an exemption from CIT for 4 years commencing from the first year in which a taxable profit is earned, and a 50% reduction of the applicable tax rate for the following 9 years.
- The CIT rate applicable to HSHN is 17% of taxable profits in 10 years since year 2016 and the applicable tax rate for the years thereafter. This subsidiary is entitled to an exemption from CIT for 2 years commencing from the first year in which a taxable profit is earned, and a 50% reduction of the applicable tax rate for the following 4 years.

The tax returns filed by the Company and its subsidiaries are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the consolidated financial statements could change at a later date upon final determination by the tax authorities.

26.2 Current CIT

The current tax payable is based on taxable profit for the current year. The taxable profit of the Group for the year differs from the income as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted by the balance sheet date.

A reconciliation between the accounting profit before tax as reported in the consolidated income statement and taxable profit is presented below:
