China State Construction International Holdings Limited ("China State Construction") started its construction business in Hong Kong since 1979. It is a vertically integrated construction powerhouse, engaging in building construction and civil engineering operations as well as other peripheral operations such as foundation work, site investigation, mechanical and electrical engineering, highway and bridge construction, ready-mixed concrete, pre-cast production and infrastructure investment. In July 2005, China State Construction was listed on the Main Board of The Hong Kong Stock Exchange (stock code : 3311).

China State Construction is amongst the largest construction contractors in Hong Kong. As approved by the Works Bureau, it is on the List of Approved Contractors (Group C) for Public Works for the categories of Buildings, Port Works, Roads and Drainage, Site Formation and Waterworks. It is also a Group II Land Piling Specialist Contractor. Currently the Company is one of the biggest NW2 contractors for Hong Kong Housing Authority projects.

China State Construction plays an active role in construction industry by means of its sound and quality management, and has core capabilities in mastering high quality and technically advanced projects. It has undertaken over 1000 projects in Hong Kong, Macau, China and Overseas over the past 35 years, accumulating copious amounts of experiences and prominent capabilities. Projects undertaken range from building works of public housing, private residential, office / commercial, industrial, hospital institutions, educational and cultural facilities, hotels, public institutions (such as Hong Kong International Airport Passenger Terminal Building); to civil engineering works of site formation, highways, bridges, reclamation and tunnel projects; as well as piling, mechanical and electrical engineering works. In recent years, drawing on the sound experiences it gained in Hong Kong and Macau, the Group has been active in extending its reach across regional boundaries and succeeded in spreading the wings of its construction businesses in Mainland China, the United Arab Emirates and India. It has been tireless in building its three major regional business platforms covering Hong Kong-Macau, Mainland China and overseas. China State Construction is proactively committed to infrastructure investments and affordable housing projects in Mainland China, amounting to more than 100 billion RMB in total, forming another core business alongside construction business.

The Company strives keen efforts in achieving high standard of quality, environmental and safety management, and is one of the first contractors to obtain ISO 9001, ISO 14001 and OHSAS 18001 certifications. Over the years its performance is being recognized in some reputable awards gained, including second prize of the National Science and Technology Progress Awards, the Luban Award, the Zhan Tianyou Grand Award for Civil Engineering, Construction Industry Safety Award Scheme (Building Site Public Sector) Gold Prize; Considerate Contractors Site Award; The Contractor with the Lowest Accidental Rate; Safety Management System Bronze Award, Ten Best Contractors Award, plus various Construction Site Manager Awards. On the quality and environmental aspect, the Company has also been granted the Hong Kong Awards for Industry Trade and Industry Department Quality Award, HKEco Business Award - Green Construction Contractor Award Gold Award
