China North Industries Corporation (NORINCO) is a giant enterprise group engaged in both products operation and capital operation, integrated with R&D, manufacturing, marketing, and services. NORINCO mainly deals with defense products, petroleum & mineral resources exploitation, international engineering contracting, optoelectronic products, civilian explosives & chemical products, sports arms & equipment, vehicles and logistics operation, etc. NORINCO has been ranking among the forefront of China's 500 largest state-owned enterprises in terms of total assets and revenue. NORINCO faces toward to markets and strives for development of updated high-tech defense products. NORINCO has demonstrated the solid strength of Chinese national defense industry and technology in precision demolition & annihilation systems, amphibious attack weapons and equipment, long range suppression weapon systems, anti-aircraft & anti-missile systems, information & night vision products, highly effective assault & destroy systems, small arms as well as anti-terrorism & anti-riot equipment. NORINCO has gained the trust from clients for its high quality products and excellent services. NORINCO is keen to cooperate with famous domestic and

overseas petroleum & mineral enterprises in the fields of resources prospecting, exploitation and trading, and to energetically promote the business into industrialization. While having built its brands in such services as international engineering contracting, storage & logistics and vehicles, NORINCO maintains its competitive edge in civilian explosives & chemicals, optoelectronic products, and sports arms based on the integration of technology, industry and trade. NORINCO has been registered in the lead of the global 225 largest international engineering contractors for successive years, and many of its subsidiaries were also awarded the national title as advanced enterprise for excellent quality and performance. By advocating collaboration and win-win, and having made constant efforts to enhance the capabilities of taking the whole situation into account on management of its overseas and domestic markets, NORINCO has established a global operation and information network and formed a worldwide-diversified market setup. NORINCO will continuously promote products innovations, make technology & services improvement and share the achievements of development with domestic and international friends to create a bright future in joint hands!
